

Meet Alma™

Technology has the potential to enhance the learning environment and be a catalyst for school improvement, but educators have long had to make do with expensive, monolithic and fragmented systems that are cumbersome and time-consuming to use. Alma offers an affordable, modern alternative to traditional SIS and LMS products with an all-in-one system that minimizes educators' busywork and gives them better visibility into student learning.

Intuitive

Alma streamlines student information, school management and learning management into one simple and secure cloud-based system. Administrators and teachers can access the information and tools they need within a few clicks through role-specific dashboards.

Insightful

Alma provides a holistic view of student performance, presenting information in a way that is clear and actionable. With Alma, schools can easily share student progress and school updates with parents online.

Progressive

Alma equips educators with classroom, curriculum and lesson planning tools that embrace progressive educational strategies and best practices to help boost productivity and improve student outcomes.

Flexible

Alma combines administrative functions with productivity tools designed to work the way educators naturally work. Time-saving and customizable features within Alma, such as drag-and-drop tools and custom reporting, address every school's unique and evolving needs.

continued

Core Features for Free

Alma's core features, such as those typically found in expensive SIS and LMS systems, are available at no cost. Some of these features include:

School Administration

- Holistic student records
- School calendar
- Setup wizard
- Classroom administration
- Class rosters

Classroom Tools

- Student performance data
- Traditional, standards-based and proficiency-based gradebook
- Curriculum development and mapping
- Lesson plan management
- Standards & outcomes tracking
- Assignment management
- Attendance and enrollment history

Community Engagement

- Student and parent portals to see grades, assignments and messages
- School calendar and directories
- Messaging system

Additional Features & Services

Schools can choose from a range of additional fee-based features and services to create a solution that meets their needs and budget. These services include SMS text messaging, data migration services, and on-site support and training.

Coming Soon

Alma was founded on a core belief in user-centric design and continuous improvement. Its suite of add-on features will continue to grow with new capabilities added every 1-2 months on average. Features currently in development include state reporting and customizable report cards.
