

JR-MID DEVOPS ENGINEER

THE OPPORTUNITY

Alma is seeking a Junior to Mid-Level DevOps Engineer for an exciting opportunity to join our small, fast-paced team in Portland, OR. The responsibilities of this position include a mix of current environment enhancements and new project work. The ideal candidate can work independently, while performing as part of a team of both DevOps and QA Engineers.

We're looking for passionate, dedicated, quality-minded engineers who can:

- Enhance our existing cloud infrastructure scalability and reliability
- Support complex solutions across a myriad of cloud infrastructure and application technologies
- Assist with our software release cycle and code deployment solutions
- Work effectively and efficiently with other engineers on projects of varying scope and complexity
- Works well in a fast-paced work environment with the expectation of frequently delivering high quality solutions.

Additionally, we highly value the following Skills and Qualifications:

- 3 or more years of experience as a DevOps Engineer.
- 3 or more years of experience in AWS cloud services (AWS Certification is a plus).
- 3 or more years of experience with source control solutions
- 3 or more years of experience with CI/CD solutions
- 3 or more years with Linux (Ubuntu experience is a plus)
- 3 or more years of experience with scripting languages such as BASH and Python
- 3 or more years of experience with Terraform
- 2 or more years of experience with Ruby Language
- 2 or more years of experience with Docker and Kubernetes
- 2 or more years of experience with JIRA or other ticket management systems
- Experience with Packer and Vagrant
- Experience with MongoDB
- PHP Experience is a plus

Who We Are:

Alma is transforming technology in our K-12 schools. We take a modern approach to student information and learning management that supports K-12 administrators, teachers, parents and students. We are a passionately driven team with the mission to provide this resource to every school, regardless of their financial constraints. We are here to improve the education of students. Our focus is on the whole student - we build tools that ultimately help enrich both their intellectual and emotional growth. We do this by empowering the greatest learning resource that students have at school: educators. Our product designs are based on research done at schools.

A Note to Applicants:

Alma Technologies is an Equal Opportunity/Affirmative Action Employer. We evaluate qualified applicants without regard to race, color, religion, sex, national origin, disability, veteran status, and other protected characteristics.

Studies have shown that women and people of color are less likely to apply for jobs unless they believe they meet every one of the qualifications as described in a job description. We are most interested in finding the best candidate for the job, and that candidate may be one who comes from a less traditional background. We would encourage you to apply, even if you don't believe you meet every one of our qualifications described.

To Apply: Please send a cover email and resume to careers@getalma.com
